

## Button Injection Site

- **Large & Arc-surface design**  
prevents the bacterial buildup and reduces alcohol retention when swabbing.
- **Transparent device**  
provides immediate detection of blood flashback.
- **Non-removable compressed port**  
instantly reseals, permitting repetitive injections with relatively large gauge needles.
- **Synthetic Polyisoprene Site**  
to eliminate latex sensitivity.

Part Number	Characteristic / Material	Description
SA0137	Toray ABS T-900 Site- Latex Free Polyisoprene	Button Injection Site I.D. 2.08mm/O.D. 3.2mm
SA0138	BASF TERLUX ABS 2802 Site- Latex Free Polyisoprene	Button Injection Site I.D. 2.08mm/O.D. 3.2mm
